

Date: May 27, 2026
Candidate: Alex Mercer

Ref: AIT-2026-77891

Dear Alex Mercer,

On behalf of the Admissions Committee, it is my absolute pleasure to congratulate you on your admission to the **Master of Science in Agentic Systems Engineering** program at the Antigravity Institute of Technology for the academic year **2026-2027**.

Our admissions process is highly selective, and you were chosen from a global pool of outstanding applicants due to your exceptional academic achievements, leadership potential, and technical drive. We believe your background makes you a perfect fit for our rigorous, innovation-oriented environment.

Please review the details below regarding your academic program and the corresponding fee structure.

To secure your enrollment, please submit your acceptance form and deposit payment on or before **June 15, 2026**.
